Best Practices 2021-22

BEST PRACTICE 1

1. Name: Thalassemia Awareness and Screening Camp programme

2. Objective

The objective of the Thalassaemia Awareness and Screening Camp programme was premarital screening for thalassemia for all students and staffs of the College so that carriers of Thalassaemia (if any) can be detected at the earliest and the disease can be prevented in future.

3. Context

Thalassaemia is an inherited haemoglobin disorder and is considered as life-threatening. Understanding local socio-cultural context and level of proper awareness about Thalassaemia is crucial for selecting effective prevention strategies. One of the prevention methods of Thalassaemia is carrier detection. Large scale awareness campaigns are being organized in India both by government and non-government organizations in favour of voluntary premarital screening to detect carriers of thalassemia and marriage between both carriers are strongly discouraged.

4. Practice

The Thalassaemia Awareness and Screening Camp programme was organised by NSS Unit I and Unit II in collaboration Thalassaemia Control Unit, Calcutta School of Tropical Medicine, Kolkata on 07/05/2022 for the benefit of Students, Teachers and Non-Teaching staff of the College. It is noteworthy to mention here that the practice of organizing Thalassaemia Awareness and Screening Camp programme is being done by the College since 2017 onwards. This year (2021-2022) Thalassemia screening is done for a total of 30 people involving Students, Teachers and Non-Teaching staff of the College.

5. Evidence of Success

All 30 people who were screened for Thalassaemia were provided reports of their Thalassaemia screening conducted by HPLC from Thalassaemia Control Unit, Calcutta School of Tropical Medicine, Kolkata. Apart from that those who were detected carriers were given proper and useful counselling regarding prevention of thalassemia in near future.
